6.00 pm

**Opening of the installation 'IKG by documents' (theatre rehearsal room)**

'IKG by documents' is an installation by An Seebach and Nichol  Velasquez that explores the historical foundations of IKG and brings them to life in the present.

The artists delve into the IKG's historical documents, encounter the pioneering spirit of the 1970s, and distil the committee's key concerns into six thematic tables. Visitors are invited to follow this artistic journey into the past and consider what it might mean for the present.
